

4. SwissCup IOM am 13. 10. 2012 in Brunnen

The Regatta Association Brunnen and Model Shipbuilding Club Basel were able to welcome nine sailors and 2 ladies on Lake Lucerne. 6 races in light winds could be sailed.

From the pier, Gusti had everything under control, he had to wait for wind, so it calmed with Basler Lackerli.

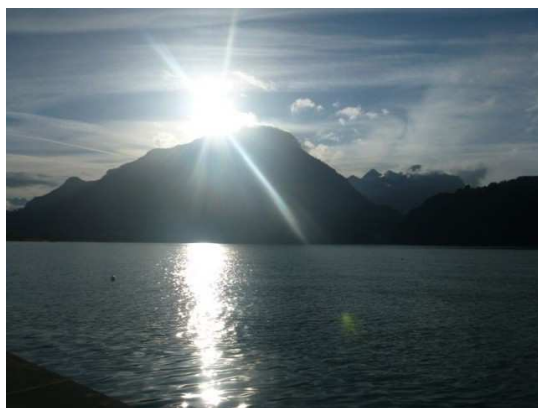

Is that a UFO from the Nordlinger Ries, no, just one example of new forms of boat, as is possible with IOM.

With a defective transmitter Rolf wanted out, but Walter had a spare transmitter here, so he could sail again. Thank you Walter.

The sailors from Germany, Ticino, Bern and Zurich have to thank the RVB with Peter Graf and his team and Gusti Albiez from MSCB for the race management and organization. We will be back again next year.

Pictures from Gusti Albiez, more pictures at <http://radiosailing.ch/index.php/gallerie>
